REPORT OF FOREST FIRE WARDEN

Your local organization to prevent and extinguish brush and woods fires is glad to report a good year of forest protection in 1948. In spite of danger conditions nearly equalling at times those of 1947 when great losses were suffered in New Hampshire and New England, fire damage and loss this year have been gratifyingly low.

With the continuing cooperation of all the people, we can hope to have another successful year in 1949. Let us remember that in any year, over 90 per cent of all fires are caused by carelessness and that all of these man-caused fires are preventable.

Today, we have more slash and uncut grassland than for many years in the past. Smokers, campers and tourists who use our outdoors are also more numerous than ever before. We must therefore be ready for fires which might occur but, above all, prevention by everyone is the greatest need.

A few simple precautions taken by every citizen will help, as follows:

(1) Always get a written permit from the warden before kindling a fire outdoors when the ground is not covered with snow.

(2) If you smoke, always extinguish matches and tobacco before dropping or throwing them down. In automobiles, always use the ash trays.

(3) Report fires and smokes to the warden without delay.

The observance of these and other simple rules will go far to insure safety from fire damage and your co-operation in this way is earnestly solicited.

1948 FIRE RECORD:

Number of Fires 1

Acreage Burned ....1/10 acre

No. Permits Issued 23

SUPERINTENDENT'S ANNUAL REPORT

School Enrollment

The prospect of school enrollment for 1949-50 may make it necessary that we re-open the Town House School. If so, I believe this should be maintained as a school for grades 6, 7 and 8., leaving the two rooms at the Village for the first five grades. Plans for the maintenance of this extra building and the employment of an additional teacher account for the decided increase in the school board's budget for 1949-50.

Temporary Remedial Class

Soon after the beginning of the school year in September, it became evident that a group of about five pupils in the fourth grade were somewhat backward in reading and unable to understand the regular fourth grade work. The teacher, with five grades in one room, was unable to give enough time to these individuals to help them catch up. We have been able to employ on a temporary basis Mrs. Dorothy McAllister to take this group during the afternoon session at her home and give special individual help in reading, phonetics, spelling and language. We hope that before the end of the year they will have progressed far enough to be able to continue with their grade.

Cooperative Districts

In my last year's report I pointed out that a law passed by the 1947 Legislature makes it permissible for two or more districts to join together and pool their resources to maintain schools. Groups of school officials in this section of the state as well as elsewhere are giving this matter serious study. The small high schools—such as Meredith, Ashland and Bristol—find themselves at a disadvantage in furnishing a sufficient variety of courses and adequate equipment in their present small buildings and with the limited resources

at hand. I am convinced that such small units, especially on the secondary level, must combine together into larger units if they are going to be able to provide the education that the young people of our generation should have.

School Marks

One of the commonest complaints that people bring to the superintendent and school board is that their children are not getting good marks, and they often blame the teacher. It would seem that any teacher who is willing to give pupils A's and B's, whether they have earned them or not, is considered by the parent a good teacher. On the other hand, most of us older persons can remember some one teacher of our own school days who was a severe marker but who taught us more than many others who were more lenient. The really important question for parents is, Are my children learning and gaining more power? instead of asking, Do they get A's and B's? Some educational writers advocate dispensing with school marks altogether. Perhaps this would be a good thing; but parents seem to expect them and pupils will work hard to get better marks. I do feel strongly that a teacher should not be blamed if a pupil's marks are low. The chances are she is really teaching more than some teachers who take the easy road to give Johnny and Mary an "A" just because they tried hard, whether they understand the work or not.

Respectfully submitted,

Almon W. Bushnell, Supt.

ANNUAL REPORT OF SCHOOL NURSE

The following is the report of the School Nurse for the past year.

Pupils inspected	67
School visits	55
Home visits	40

The pupils were weighed and measured twice during the year. Vision tests were made with the telebinocular. Individual inspections were made quite frequently.

Dr. Morrill did the physical examinations. Result of examinations:

Defective teeth	12
Defective vision	4
Enlarged tonsils	4
Enlarged glands	2

Transportation was furnished for 28 pupils to attend five dental clinics with Dr. Deneault in Meredith.

We were fortunate in being able to procure Miss Elsbeth O'Brien of the New Hampshire Dental Trailer for four days in June; she examined and cleaned the teeth of 41 pupils, all of the pupils through the first six grades.

I wish to thank the Red Cross for their assistance in carrying out the dental program, also the Superintendent, the School Board and the school staff for their cooperation during the year.

Respectfully submitted,

Eva A. Heney, R. N.
